

CITY TO LIGHT STATEN ISLAND?

Comptroller Metz Suggests an
Experiment in Municipal
Ownership.

MUST DO SOMETHING.

H. H. Rogers's Company, He Says,
Has Failed to Carry Out
Its Contract.

Comptroller Metz is in favor of trying at once the experiment of municipal ownership of street lighting in Staten Island. He believes that the failure of H. H. Rogers's company to carry out its contract gives the city a right to refuse to renew its contract and a splendid chance to experiment with municipal ownership without interfering with vested rights. Mr. Metz is chairman of a committee of the Board of Estimate and Apportionment appointed to investigate the conditions of which the Staten Island people complain. He said today that the committee's report will be ready to submit to the board at the first meeting in November, and it will recommend that the city erect a lighting plant and do its own lighting in the borough.

"We shall have to do something," he said, "and that seems the most feasible plan. If that does not work we shall have to get the companies over here to bid on supplying the island. They would only have to run a cable across to Staten Island to supply all the lights that are needed for years to come, and I think they would be glad to do it."

"I do not know whether it makes any difference as to where the blame lies, but the company down there has been blamed, and may deserve it. At any rate, we have now a contract with them that protects the city, and imposes a suitable penalty for their failure to light the streets, whether it is their fault or not."

"If they fail to light the streets for any length of time they lose money enough to make it hurt. I held up this contract for a time, because they had not carried out a former contract, but I signed it finally, because I saw it was the only way to get any lights at all for the people down there. This contract expires on Jan. 1. After that any time the city wants to make another contract or build its own works it can do so."

"I think the companies here would rather give us lights for Staten Island at a loss than see us erect a city plant, so it is possible that it will not be necessary to build one. Whatever is necessary will be done. Those people are entitled to lights and they must have them. The Evening World can assure them that they will have lights."

**POLICEMAN THROWN BY
HORSE CAN'T LIVE.**

Kalb Had but Just Recovered from
a Previous Similar
Accident.

When a riderless horse, covered with froth, dashed into the stable of the Wakened police station shortly after midnight, several policemen recognized it as a spirited animal belonging to Policeman George Kalb. Suspecting an accident, they ran into the street, where they found Kalb lying unconscious upon the ground.

The horse was summoned from Fordham Hospital and revived Kalb. The policeman took his comrades to his home on White Plains road and had him away. It was over a mile to the police station, but the horse did not stop for the speed and as he tried to turn the corner into the stable three Kalbs, other policemen, a head-butt strike against a stone pillar supporting an iron fence, and White Plains road. He is suffering from concussion of the brain and has little chance of recovery. Kalb had returned to duty yesterday for the first time in ten days. He had been thrown from his horse then and sustained severe injuries.

Because Vinol is a real Cod Liver Preparation and does not contain a single disagreeable or harmful ingredient and is not a secret formula.

Because Vinol contains all the medicinal elements—the soothing, healing, strengthening and flesh creative properties of Cod Liver Oil—but without oil or grease.

Because everything in Vinol, except the tonic iron and a fine old wine, is actually extracted from fresh cods' livers and their oil.

Because Vinol is deliciously palatable and agreeable under all conditions. Everybody likes it.

Because Vinol tones up the system, strengthens every organ, nerve, muscle and fibre of the whole body and thus overcomes weakness by thoroughly eradicating the cause of disease.

That's Why Vinol is altogether different and better than any other remedy for Coughs, Colds, Bronchitis, and all Throat, Lung and Wasting Diseases.

That's Why Vinol Restores Health and Strength to Delicate Children, Feeble Old People, Weak and Sickly Persons, Nursing Mothers, and Convalescents.

PROOFS vs. TALK!

Make the salesman tell you *how* your shoes are made and *what* they're made of this season. Don't pay out your money for any of the doubtful, cheap substitutes that the 52 per cent. advance in the cost of shoe materials has brought about.

You'll be a good deal more certain of getting your money's worth of *wear* if you demand *proofs*. Don't be satisfied without proofs of silk stitching, solid leather counter and toe boxes, duck linings, honest old-fashioned Oak-Bark-tanned insoles and outer soles. You get what you pay for in a Regal store—and we *prove* it before you purchase, by the Specifications tag which goes with every pair.

What's the difference between Fels-Naptha and other laundry soaps? Other soaps work only when you do. Fels-Naptha soap labors while you rest, but without harm to the most delicate fabric. Should be used in lukewarm or cold water—or you will never know what a wonderful cleanser it really is.

The Fels-Naptha way of washing is as simple as it is easy. You wet the pieces to be washed, rub the soap on well, then roll and put to soak for thirty minutes. During this half hour Fels-Naptha loosens the dirt and dissolves the grease.

Saves you all the hard rubbing on the washboard. The dirt comes out by light rubbing and rinsings. No scalding nor boiling, and no swollen knuckles or aching back from strenuous washboard work.

You will know the genuine Fels-Naptha by the red and green wrapper.

Fels-Naptha Cannot be Surpassed for Washing
Woolens.

"My experience with Fels-Naptha soap is most satisfactory. Previous to using it my mending required a whole day's work to overcome what poor soaps and harmful washing powders did to our clothing. Now I can do it all in an hour and the white clothes are so much whiter, while the colored things are as clear and unfaded as when perfectly new. For washing woolens it cannot be surpassed, for cleaning them thoroughly and keeping them soft and non-irritating to the skin."

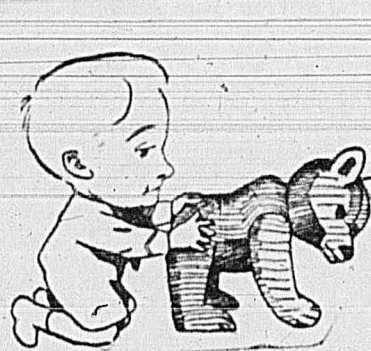

"MRS. C. N. McADOO, Greensboro, N. C."

The Labor-Saving Washboard.

Mr. Easywork—"There was a man here a few minutes ago with a patent labor-saving washboard. I don't believe in these new fangled things, but he was such a nice talker I let him leave one."

Any "Drudge"—"Judge. That's just like some foolish women. Change one form of labor for another—and call it labor-saving. Labor-saving washboard! Hosh! Get a bar of Fels-Naptha soap; use it according to the easy directions on the wrapper in cold or lukewarm water—never hot. Then you'll need no new-fangled washboard or old-fashioned washboard either. Fels-Naptha soap is the real labor-saver."

Fels-Naptha is wash-day fast express. Imitations slow accommodation.
